GRADES 6-12

**Using Technology in the
Math Classroom**

*Technology Tools to Increase Student
Engagement and Inquiry in the 1:1 Mathematics
Classroom*

This workshop is for those teaching in a 1:1 environment (students with their own computers OR a classroom with access to a cart of computers for each student) or will be moving in that direction. Now that you have computers for every student in your classroom, what are the best practices for their use and the best available tools that students and teachers can use? In this workshop, we will look at a variety of the very best applications for math and dive into trying them live. From Desmos & Geogebra, which create rich mathematical playgrounds for instruction, to GAFE and other free student engagement tools, you will leave this workshop with plenty of resources to take back to your classroom.

Cost: \$250 per person

October 30 & 31, 2017

Registration Deadline:

October 19, 2017
